

# Upgrade Now To Our 5G/LTSAT™

## FASTEST INTERNET SPEED - NO TROTTLLE - GLOBAL COVERAGE

**Get Better Connected In 2021 And Beyond!**  
**Contact Us Today: [Sales@FMCGlobalSat.com](mailto:Sales@FMCGlobalSat.com)**

Enjoy our 5G/LTSAT™ custom connectivity solutions tailored to your needs. Our worldwide network solutions provide true broadband bandwidth to ensure the fastest Internet speeds with no throttling for all type of yachts. Ideal for guest and crew wi-fi, video streaming, IPTV, social network applications, photo & video uploads, video-conferencing, anytime, anywhere in-port or while-sailing. Optimum secured SD-WAN and data solutions for short and long-term charters.

### Providing Gbps Bandwidth For Optimum Guest & Crew Wi-Fi Experience

#### WORLDWIDE COVERAGE

190 countries covered, up to 20 miles off-shore, on 4G & 5G wireless networks with global satellite coverage through multiple satellite providers, all integrated into our 5G/LTSAT™ platform with 99.99% uptime.

#### RELIABLE WI-FI

Now access Gbps bandwidth – no throttling and best guest Wi-Fi experience. Proven track record accommodating thousands of guest and crew connecting daily across the world.

#### SATELLITE VSAT

From a few Mbps to Gbps bandwidth, our solution is LEO ready and connects to HTS satellite on Ku-Band. Enjoy our software steered flat-panel VSAT technology. Also compatible with existing traditional three-axis VSAT antennas.

#### UNLIMITED VOIP CALLS

VoIP phone includes local number, unlimited calling to 46 countries, voicemail, and conferencing calling with meeting up to 50 participants per phone.

#### CUSTOM SOLUTIONS

Most cost-effective data solution with tailored data plans and managed network services. Custom solution to perfectly size your local network needs.

#### 24/7 CUSTOMER SUPPORT

Dedicated engineers across the globe for all your managed network services. Our proprietary web portal and APIs enable complete visibility into system usage and statistics.
