OUR TEAM

First things first, we are all about delivering a good service; our 38 staff have worked collectively for Pinmar Supply for almost 400 years and therefore we really know our stuff. We sell an enormous range of products but we can also help you find exactly the one you need.

We can help you in English, Spanish, German, French and Russian.

HOW TO BUY

We have 4 shops that all have access to the same brands and goods but each shop has its own focus.

- Our shops in the STP and MB92 shipyards are yacht centric, with a large range of hardware and tools and a lot of experience in sourcing all sorts of spare parts and unusual items.
- Shop Escollera (outside of STP) also acts as a technical centre where you can visit our Product Manager, David, for technical advice and product compatibility guidance.
- Shop Son Fuster is a wholesale centre specifically for the trade and bulk buying.

Our mobile sales teams visit Palma, Puerto Portals, Port Adriano and Port Vell (Barcelona) daily. Place your order in the morning and wherever possible you will have it delivered the same day.

Our international supply team will help you if you can't make it to any of the retail shops, you are cruising or it's simply more convenient to arrange your order and delivery by email.

Don't forget, you don't have to be in Spain for us to provide service to you. We have a great logistics team working behind the scenes to make sure your order gets to you wherever you are.

GETTING THE BEST DEAL

We have special discounts for orders over €3,000, €5,000 and €10,000.

Do you have a paint contract with any GYG company, or have you in the past? If so, then get in touch as we have a special tariff for you.

If you are not being painted but have a long stay with some major works planned our refit tariff could offer you significant savings.

Temporary yacht protection

Temporary protection products shield expensive finishes. They prevent accidental damage, which would cost money and take time to repair.

All of our shops carry quality protection material including products that are fire and UV resistant.

Our shops in STP, Mollet and MB92 Barcelona all carry a display board with samples and information on which products work best for various applications.

Our Palma Escollera shop carries a large inventory and offers a delivery service, this shop is situated less than 200 metres from the entrance of the STP shipyard.

Engineering and deck

Our supply and shore support team is here to help you find all types of marine products that are not general stock items in our retail shops. The team can also arrange servicing and repairs with local contractors. We are in contact with hundreds of suppliers and the team have the experience to offer help and solid advice.

**Don't just take our word for it,
Here's what some of our customers said recently...**

Liz, Marcela and the team at Pinmar Supply never fail in offering a professional service to provide a wide range of products at the most competitive rate that we can find.

Crew, M/Y Amevi (80m)

During our recent refits in Barcelona, Pinmar Supply has been very helpful in providing us with various supplies for different fields such as hydraulic, plumbing, electrical and mechanical parts. The team is always available in the yard and able to find suitable solutions for very specific cases. This is an essential support much appreciated in our engine department.

Chief Engineer, Motor Yacht (125m)

We were in Barcelona for a period of 3 months during spring 2016 and needed different supplies. Other than the usual deck supplies and paints, we also purchased engineering spares to carry out maintenance jobs onboard. Having worked with Pinmar Supply over the last years, Jose the Shop Manager and his team acted as a single point of contact and were able to source many items for us. The service is excellent and the orders were always delivered on time.

Chief Officer, Motor Yacht (50m)

M/Y Lightning was in a lengthy shipyard period undergoing a large refit, where we needed a continuous supply of products and materials to make sure that the crew were capable of completing the tasks efficiently and with great results. Pinmar Supply has been our choice, with a great stock of supplies as well as a quick response time to any of those odd extras that we've required and had to order in. The staff are extremely friendly, professional and knowledgeable. Lightning has now left the yard and today we continue our relationship with Pinmar Supply. I recommend Pinmar Supply!

Chief Officer, M/Y Lightning (52m)

We were pleased to work with Pinmar Supply during our stay in the shipyard. Considering the high demand in the yachting industry services, Pinmar Supply has responded with high professionalism and receptiveness to all our requirements. They have treated us, together with their suppliers, with top priority every time we had an emergency requirement. We appreciate their knowledge and prompt advice regarding the issues concerning the deck or the interior department. This has helped us to save time. Their experience was a helpful tool for us to prepare the yacht for a new season and to push a new standard through the industry. We highly recommend Pinmar Supply for their services and for their excellent collaboration.

M/Y Pearl (60m)

A SERVICE YOU CAN TRUST

Visit any of our shops or email the team at sourcing@pinmarsupply.com

Stewards and Stewardesses

A service specifically for the interior crew, we have a huge selection of brands and great ideas.

Let us know what you are looking for and we can work with you to find just what you need within your budget.

We can arrange polishing for silverware and replace broken tableware. We also supply all of the major toiletry and sun care brands.

We will be happy to bring you a brochure, alternatively you can download it from our interiors section at www.pinmarsupply.com
