SINT MAARTEN

WELCOME TO YACHT CLUB AT PORT DE PLAISANCE!

For over 25 years, the Yacht Club at Port de Plaisance has been recognized by experienced yachtsmen to be one of the finest marinas in the Caribbean. Not only are we known for our incredible location, but we also offer our customers a full scope of services not easily replicated in any marina.

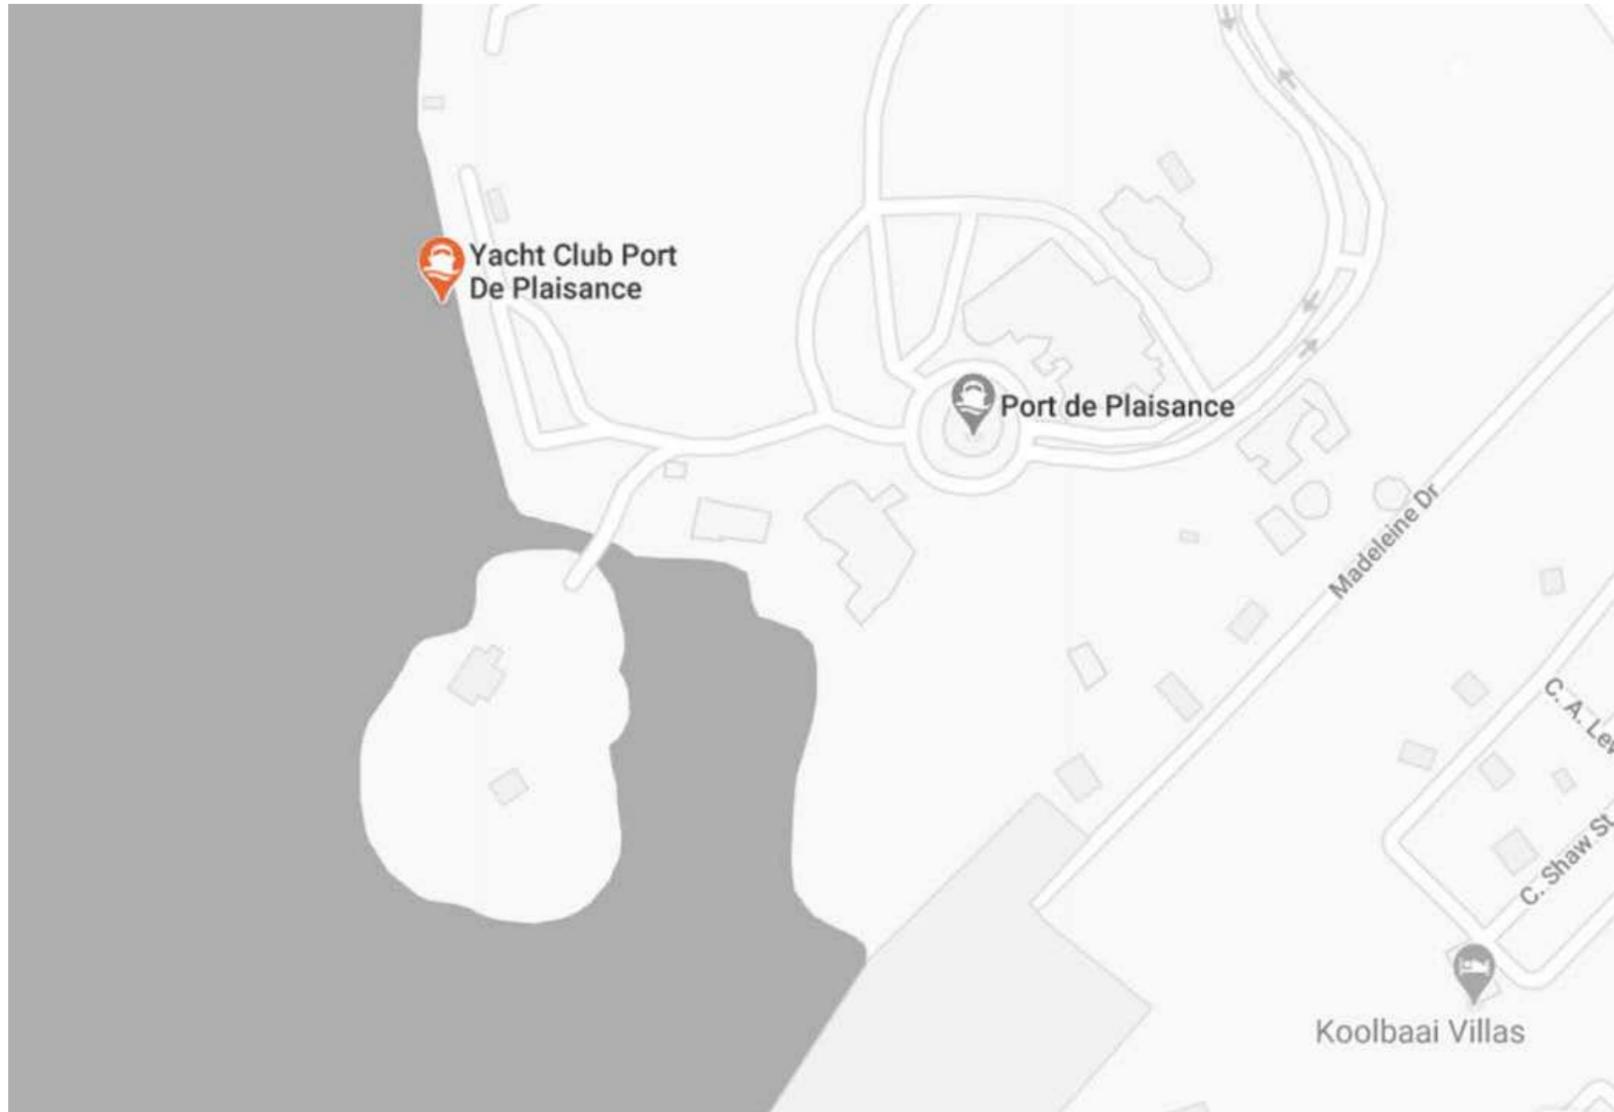

Our popularity amongst captains has been greatly attributed to our continuous strive to be recognized as one of the Caribbean's premiere service centers for both owners operated and professionally crewed yachts.

We are perfectly positioned inside the Simpson Bay Lagoon, with access from the Simpson Bay Bridge on the Dutch Side, and the Sandy Ground Bridge on the French Side. When you dock with us, you will have complete access to a wide range of industry professionals and a variety of on-site amenities to enhance your stay in Sint Maarten. A few of our amenities include a five-star hotel, restaurant, casino, a full-service gym, and tennis facility to fulfill your every need.

In addition to being noted as one of the finest luxury marinas in the Caribbean, the Yacht Club is a fully accredited ISPS certified facility for motor-yachts from 40' to 260', with drafts up to 16' - perfect for charter vessels transitioning both long-term and short-term. Our large ultra-strong concrete slips offer amenities that includes: Ultra-Low-Sulfur-Diesel (ULSD), reverse osmosis water, 220, 380, 480v single or 3-phase power supply, and free high speed wireless internet!

The Yacht Club is simply put: The perfect home-base of operations for hopping between the Leeward Islands of Anguilla, Saba, St. Barths, St. Eustatius, St. Kitts & Nevis, and Antigua as well as the USVI and BVI Cruising grounds.

PRIME CARRIBEAN LOCATION

OUTSTANDING CRUISING DESTINATION

Sint Maarten is a successful cruise destination because we understand the need to be able to offer a quality land experience, and the necessity of shore and land excursion revenue as well as sustainability concerns.

Our port facilities have been the catalyst for the improvement and development of different areas of the island. Our transportation network was improved by the completion of the Simpson Bay Lagoon Causeway in December 2013. The construction of this causeway eases traffic congestion for tours as well as for individual beach-bound passengers. We are committed to balancing our role as an economic driver and are dedicated to lessening the impact of our operations on the environment.
